BHEL SAMVAAD 3.0

अनुसंधान से आत्मनिर्भरता की ओर, बीएचईएल की एक और पहल

Chief Guest:

Dr. Mahendra Nath Pandey,
Hon'ble Union Minister,
Ministry of Heavy Industries

Location on Map

09th Nov'23

09:00 AM

BHARAT MANDAPAM, NEW DELHI
(ENTRY FROM GATE NO. 07)

**- a tradition to uncover opportunities
and unlock potential of local suppliers**

BHEL SAMVAAD is one of its kind platform and a vital component of BHEL's initiative aligned with Government of India's Make-in-India vision and a long-standing commitment to the AatmaNirbharBharatAbhiyan. BHEL's unwavering dedication to fostering self-reliance in India finds expression in these workshops. These were carried out with support from key governmental entities such as the MHI, DPIIT, MoMSME, MeitY, CEA, etc., in collaboration with various domestic industry associations.

It is back with its **third iteration** after success in the years 2021 and 2022, which were host to more than 2000 suppliers each year.

*We are excited to host our speakers and success partners in person for **BHEL SAMVAAD 3.0** at **Bharat Mandapam, New Delhi**. The event gathers dignitaries from Gol, Academic and Research Institutions, Industry Associations, Technical Teams from various BHEL Units, who will engage in interactive sessions and panel discussions.*

- A glimpse from 2021 and 2022

Seeking provenness of past experience for identical application acts as an impediment for development... one has to think better ways of addressing such issues. Development is an iterative process, the development times and fixation of costs should be dealt separately... This will be a landmark change, when properly formulated.

- Dr. Nalin Shinghal, Ex. CMD, BHEL

We wish that BHEL should also spearhead the efforts for indigenization in sunrise areas... Industry should come forward and avail the benefits being granted by Govt... Procuring entities should develop short term, medium term and long term plans for indigenization of items...

- Akhilesh Kumar, Deputy Director General, DPIIT

BHEL SAMVAAD shall pave the way for more innovative ideas, more involvement and more tangible outcomes. Joint Working groups with domestic Industry shall address the approach forward with a time bound action plan

- Jai Prakash Srivastava, Director (E, R & D) & Director (Finance) - Addl. Charge, BHEL

BHEL is visible in each and every step of industrial development and not limited to the power sector... They are looking for domestic players who can be fillers for industrial growth. BHEL SAMVAAD is a platform where we come to know about each other in a better way, so also of the requirements...

- A K Rajput, Chief Engineer (R&D), CEA, MoP

Development efforts should not be left midway. In case the development order is not successful, the procuring entity and the seller to jointly work out where the issues have gone wrong, and what can be done to make the development effort successful.

- U.S. Matharu, Ex. Director (Power), BHEL

It is very encouraging that BHEL is actively pursuing the development of domestic supply chain partners through BHEL SAMVAAD.... these are exciting times... it is poised for a growth upto 25% CAGR in next five years. Domestic partners are to be bullish in this sector and avail the PLI/ CAPEX related schemes where Govt is the co-investor for 50%....

- Prashant Kumar, Scientist, MeitY

AatmaNirbharBharat is not about replacing an imported item with a substitute,... its success lies in delivering a quality product not only to the domestic market, but also about creating Brand India as a quality destination

- Renuka Gera, Ex. Director (IS&P), BHEL

When the supply chain is broken and the foreign players decide to turn the tap off, Indian industry should not be orphaned owing to lack of technology... time is now for investment... there would be higher procurement costs initially as the cost of developing and establishing the competence is the cost for indigenization

- Tosher G. Hormusjee, FICCI

09th Nov'23

Audi 01, Level 02,
Bharat Mandapam

Forenoon
