संवाद 4.0 Samvaad -सहयोग से सफलता

Venue

Bharat Mandapam, New Delhi

Date & Time

25th November, 2024 - 08:30 Hrs. onwards

**Mark Your Calendar for this
Transformational Event**

Chief Guest

Shri H. D. Kumaraswamy

Hon'ble Minister of Heavy Industries and Steel

Guest of Honour

Shri Bhupathiraju Srinivasa Varma

Hon'ble Minister of State for Heavy Industries and Steel

BHEL SAMVAAD 4.0

**- a tradition to uncover opportunities and unlock
the potential of local suppliers**

BHEL SAMVAAD is a one of its kind platform and a vital component of BHEL's initiative aligned with Government of India's Make-in-India vision and a commitment to the AtmaNirbhar Bharat Abhiyan. BHEL's unwavering dedication to fostering self-reliance in India finds its expression in these workshops. These were carried out with support from key governmental entities such as the MHI, DoE, DPIIT, MoMSME, MeitY, CEA, etc., in collaboration with various domestic industry associations.

It is back with its Fourth National Interaction after success in the years 2021, 2022 and 2023, each of which were host to more than 2000 suppliers.

We are excited to host our speakers and success partners in person for BHEL SAMVAAD 4.0 at Bharat Mandapam, New Delhi. The event gathers dignitaries from GoI, Academic and Research Institutions, Industry Associations, Technical Teams from various BHEL Units, who will engage in interactive sessions and panel discussions.

A glimpse from BHEL SAMVAAD 3.0

09-11-2023

Under the leadership of Hon'ble Prime Minister Sh. Narendra Modi ji, we are advancing towards Viksit Bharat by strengthening the five pillars of self-reliant India viz. economy, infrastructure, systems, vibrant demography and demand. I commend BHEL's indigenisation efforts, particularly the BHEL SAMVAAD dialogues launched since December 2020.

- Dr. Mahendra Nath Pandey,
Erstwhile Union Minister of Heavy Industries

In a VUCA world, where uncertainty prevails, BHEL's SAMVAAD initiative exemplifies AtmaNirbhar Bharat by fostering collaboration and innovation within our domestic industry, and thereby ensuring resilience against supply disruptions.

- Shri Kamran Rizvi, IAS,
Secretary,
Ministry of Heavy Industries

I am sure that BHEL SAMVAAD will serve as a platform for all stakeholders to engage in meaningful interactions so as to collaboratively devise solutions aimed at overcoming obstacles and fostering the growth of the manufacturing sector in India.

- Shri Vijay Mittal, IOFS,
Joint Secretary,
Ministry of Heavy Industries

BHEL SAMVAAD is our flagship initiative to exchange ideas, share experiences, and explore new avenues for mutual growth. It's an opportunity for us to deepen our connections with all stakeholders to carry forward the shared values for an AtmaNirbhar Bharat.

- K. Sadashiv Murthy
CMD, BHEL

Together, as we embrace our shared values for nation-building, we will empower local suppliers in the capital goods sector and turn the Make-in-India dream into reality. BHEL SAMVAAD continually broadens its scope to decisively tackle the gaps, which when addressed will enable indigenization and drive our national progress.

- Jai Prakash Srivastava,
Director (E, R&D), BHEL

BHEL SAMVAAD: A glimpse from 2021 to 2022

28-10-2022

BHEL is visible in each and every step of industrial development and not limited to the power sector... They are looking for domestic players who can be fillers for industrial growth. BHEL SAMVAAD is a platform where we come to know about each other in a better way, so also of the requirements.

- **Ashok Kumar Rajput**
Member (Power Systems), CEA, MoP

28-10-2022

We wish that BHEL should also spearhead the efforts for indigenization in sunrise areas... Industry should come forward and avail the benefits being granted by GoI... Procuring entities should develop short term, medium term and long term plans for indigenization of items.

- **Akhilesh Kumar**,
Addl. Director General, QA,
Ministry of Commerce and Industry

16-02-2021

Seeking provenness of past experience for identical application acts as an impediment for development...one has to think better ways of addressing such issues. Development is an iterative process, the development times and fixation of costs should be dealt separately... This will be a landmark change, when properly formulated.

- **Sunny Malhotra, IESA**

28-10-2021

When the supply chain is broken and the foreign players decide to turn the tap off, Indian industry should not be orphaned owing to lack of technology...time is now for investment...there would be higher procurement costs initially as the cost of developing and establishing the competence is the cost for indigenization

- **Tosher G. Hormusjee, FICCI**

05-01-2021

AtmaNirbhar Bharat is not about replacing an imported item with a substitute,...its success lies in delivering a quality product not only to the domestic market, but also about creating Brand India as a quality destination. It is very encouraging that BHEL is actively pursuing the development of domestic supply chain partners through BHEL SAMVAAD.

- **Arun Goel, IAS**,
Former Secretary, Ministry of Heavy Industries

25th Nov'2024

BHARAT MANDAPAM, NEW DELHI

Time	Sessions	Location
08:30 - 09:30	Registration / Tea	Audi 01, Level 02
