BHEL signs MoU for setting up Renewable Energy Projects in Yemen

In a step towards further consolidation of its position as the flagship Indian power equipment company in the overseas market, Maharatna Bharat Heavy Electricals Limited (**BHEL**) has signed a Memorandum of Understanding (MoU) with the Ministry of Electricity and Energy, Republic of Yemen for setting up Solar Photovoltaic (PV) based power plants at different locations in Yemen. The MoU was signed in a ceremony in New Delhi by Mr. B. Prasada Rao, Chairman & Managing Director, **BHEL** and H.E. Saleh Hassan Sumie, the Honourable Minister of Electricity & Energy, Republic of Yemen, in the presence of H.E. Mrs. Khadija Radman, the Ambassador of Yemen in India, Mr. W.V.K. Krishna Shankar, Director (Industrial Systems & Products), **BHEL** and officials of the Ministry of Electricity & Energy, Republic of Yemen and **BHEL**. **BHEL** is presently executing a 400 MW Gas Turbine based power plant, Marib Phase-II, in Yemen. Setting up Solar PV plants in Yemen is a step in reinforcing **BHEL**'s commitment to providing green power solutions in particular and the Yemeni Power Sector in general.
