

TECHNICAL SPECIFICATION & PQC

Heavy Duty Blow Pipe (Injector Type)

Injector Type Oxygen-Fuel Gas(LPG) Heavy Duty Blow Pipe as per IS 7653-1975 (Latest) and as per schematic diagram of heavy duty Blow pipe.

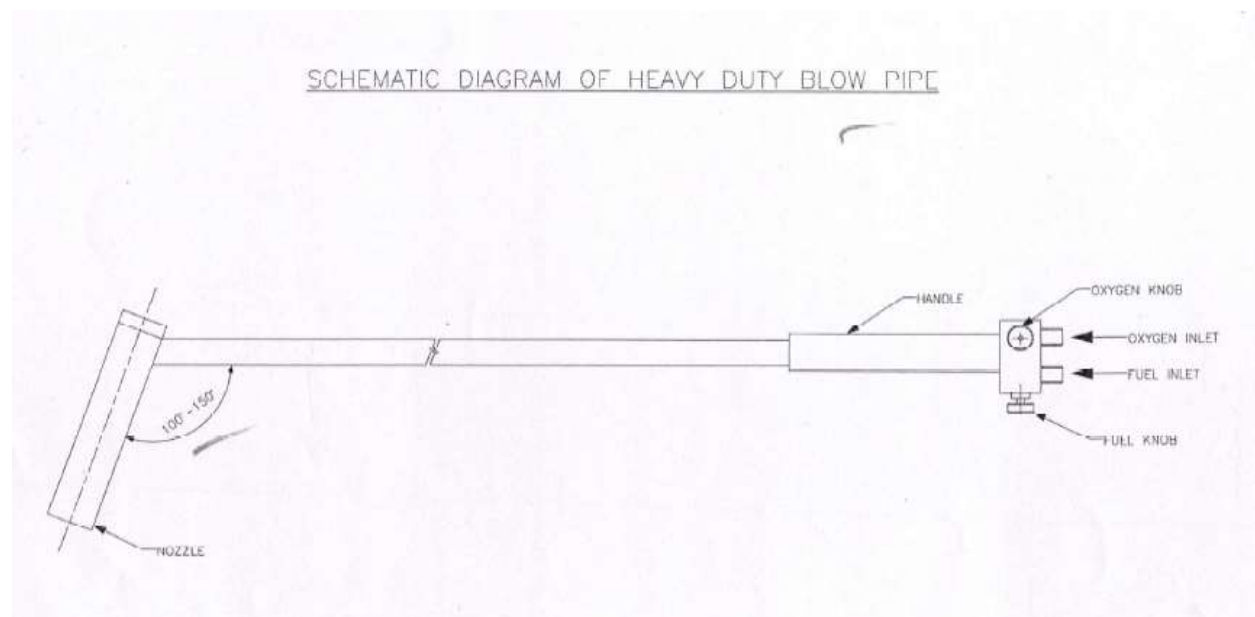

Injector Type Oxygen-Fuel Gas(LPG) Blow Length is 750 mm (Minimum).

Nozzle size 30 (or higher capacity nozzle) for heating plate thickness more than 1.5 inches.

Inlet connection for Oxygen -3/8 inches BSP RH (external thread).

Inlet connection for Fuel Gas(LPG) -3/8 inches BSP LH (external thread).

Application - Heating plate, thickness more than 1.5 inches.

Pre-Qualification Criteria	
Sl. No.	Pre-Qualification Creteria
1	Bidder is manufacturer (reply in Yes or No)
2	Bidder (other than Manufacturer) shall enclose authorisation letter from Principal Supplier.
3	Torch photo or cataloge is required
