ANNEXURE-I

BHEL Registers Strong Revenue Growth in FY 2025–26

New Delhi, April 17, 2026

Bharat Heavy Electricals Limited (BHEL), India's foremost engineering and manufacturing enterprise in the power and infrastructure sector, has registered a turnover of around Rs. 32,350 crores (provisional and unaudited) for FY 2025–26, marking a growth of 18% over the previous year.

The company secured total order inflows of around Rs. 75,000 crores during the year. With this, BHEL's total outstanding order book at the end of FY 2025–26 stands at around Rs. 2.4 lakh crores.

Key highlights of the year include:

- In the power sector, BHEL continued to maintain a strong market position with significant order wins of around Rs. 59,000 crores during the year.
- The industrial segment recorded fresh orders of around Rs. 16,000 crores across diverse sectors such as transportation, transmission, defence, process industries, and industrial equipment, reflecting the company's broad-based presence.
- On the execution front, BHEL commissioned/synchronised around 8.9 GW of power capacity, demonstrating its continued focus on project delivery and operational efficiency.

With healthy revenue growth, a strong order book, and a sustained execution pipeline, BHEL enters FY 2026–27 with solid momentum. The company remains committed to delivering high-impact infrastructure, driving indigenisation, and enhancing stakeholder value.
